Celebrating Lives Impacted in 2023

We are reflecting on all that God has done and celebrating the lives that were impacted in 2023 through Rapha's mission ***“to end trafficking and abuse—one child, one family, and one community at a time.”*** We could not do this without your faithful partnership, prayers, and dedication. Please celebrate with us!

Children who are survivors of sexual trauma found hope and healing in Rapha's Survivor Care programs. **Families** gained in strength and stability when they accessed essential resources through Rapha's Prevention programs in Southeast Asia and Crisis Intervention Programs in Haiti. **Communities** developed safety nets for children when young people and adults were trained on the prevention of exploitation and abuse.

Celebrating Lives Impacted in 2023

Young survivors received holistic care and treatment—including counseling, medical care, education support, social work and legal advocacy—at Rapha’s Survivor Care Campuses.

Survivors of exploitation and sexual abuse—children and young adults—received treatment and support—including counseling, medical care, education support, social work and legal advocacy—while living in their families and communities.

Young people, parents, service providers, and community leaders attended training classes on preventing and responding to trafficking and abuse.

Families received prevention and family strengthening services, including food and education support, relocation, income generating activities, and more.

January Medical Trip

“To witness the work of restoration and healing that God is bringing about in the lives of these vulnerable girls was a miracle in itself. The team left Cambodia with full hearts and the realization that only God can heal and restore the scars that are beneath our skin.” - Pat Fancher | Rapha International Board Member

International UN Convention

Will you pray for Rapha’s staff as they advocate for survivors at an International United Nations Convention?

Pray for advocacy and public policy changes that benefit survivors of trafficking. Please pray for wisdom for leaders as they make decisions that impact their communities.

Rapha's Haiti Country Director, Gerson Nozea, speaking on behalf of survivors of trafficking at a United Nations event.

Come Alongside Survivors

Human Trafficking Awareness Month may be over but you can still come alongside survivors of human trafficking:

- Commit to pray [here](#).
- Advocate for Freedom [here](#).
- Learn the signs of misinformation [here](#).
